Project overview

The project is basically to connect the world with each other so that people who need help to complete their small household works can easily get workers without any difficulty.

OVERVIEW

This is a website especially created for the small-scale workers like plumbers , carpenters , electrician , etc. where they can find jobs for themselves. On this website people will list down their requirements like they want plumbers for their house, offices, etc. and it will get listed and whosoever plumber wants to work can contact them.

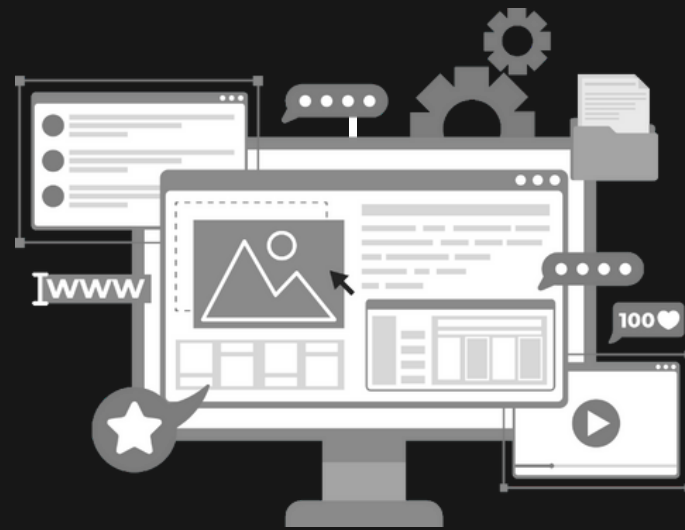

Problem

The major problem arises when it is necessary to get the work completed but one can't find any workers due to lack of any contacts .Also there are many workers available who don't get work as nobody knows them or does not have their contact details.

SOLUTIONS

FOR CUSTOMER

People can easily find the worker's contact from the website and need not ask their friends or relatives for it, and can get their work completed.

FOR WORKER

Workers who are available can check for the work-listings available near-by and can contact customer for it and provide them best of their services.

WORKER'S WAGE

As there is no third party involved so the workers will get the rightful amount for the work done.

Workers can login personally according to their profession and can share their experience and they can check where is the requirement for their work so that they contact that person who needed them.

Customer can login and look for the service listed and it will show them the list of workers available to work according to their requirement and they can contact them.

Steps Taken To Connect

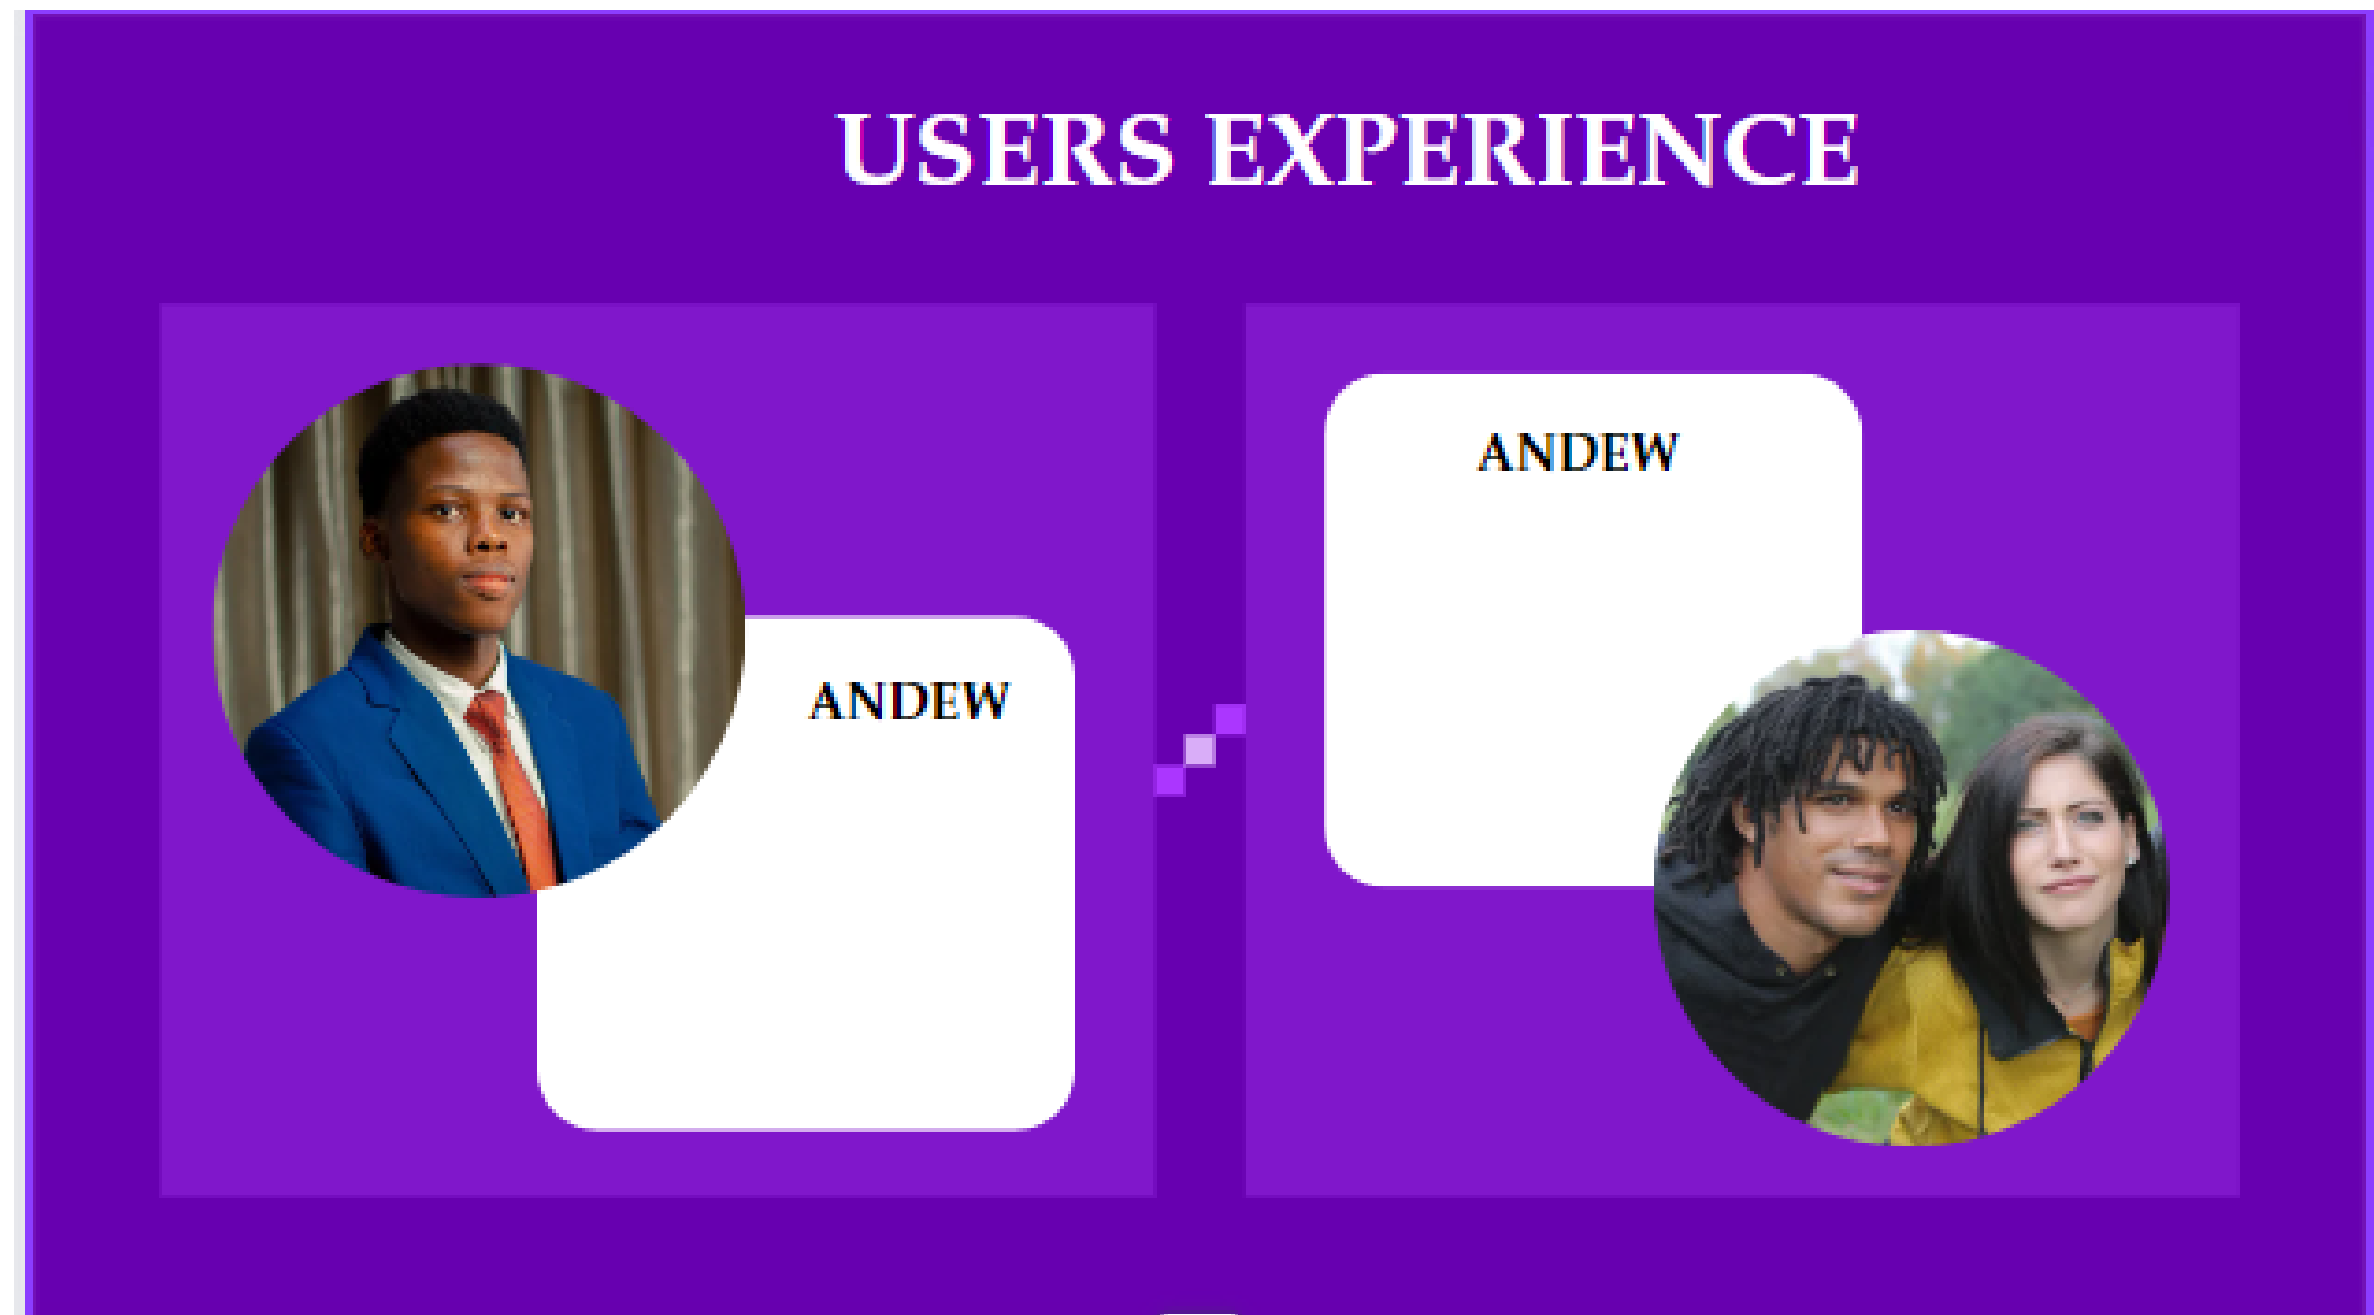

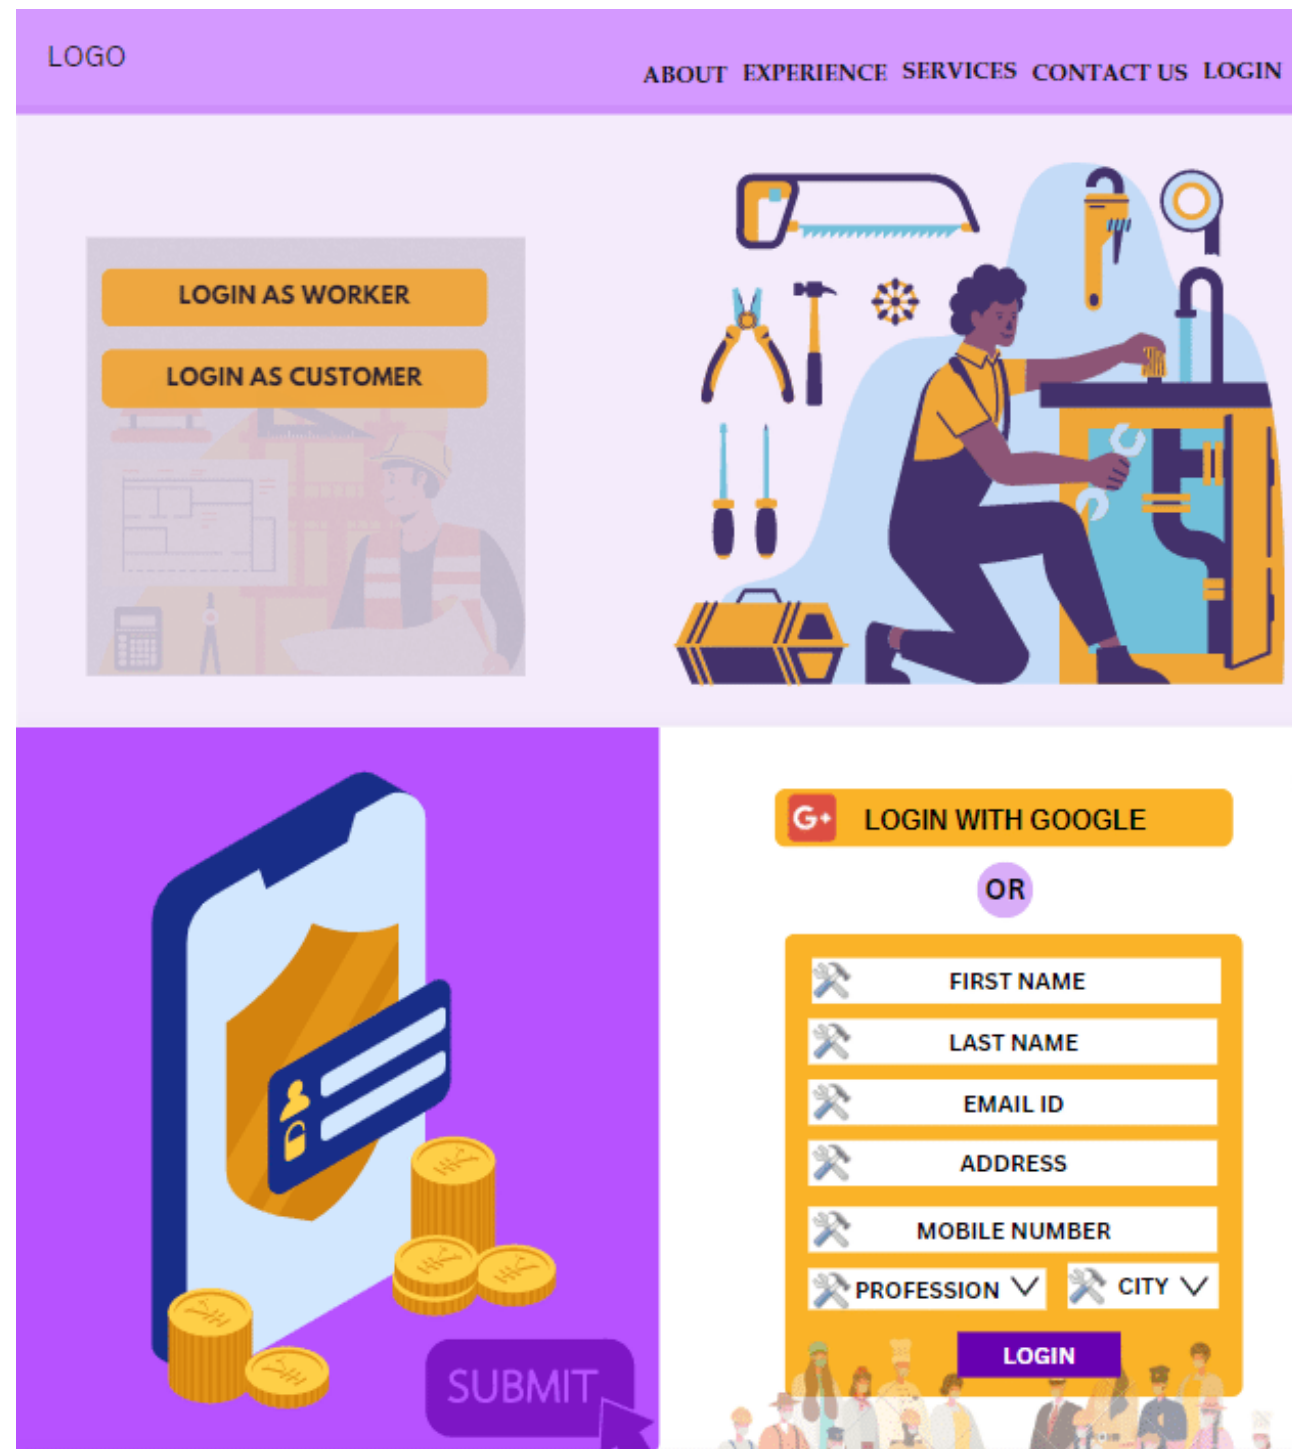

The website will provide work opportunities to new workers and will help them in connecting to the worker community.

The website will help new Customer in a particular city when they reloacte to different places as it will be difficult for them to search for workers in a completely new city.
